country; do not remember what the reports say and yet you can give us $1.00 or $1.50 a ton. How do you get that?

A You asked me for my opinion, about what it would cost and I told you.

Q You are willing to rest as to your own testimony as to commercially available bauxite on these premises, are you?

A No, not on those premises.

Q What other premises?

A The other premises are reports of the properties and examinations of the properties.

Q What reports have you on the Montenegro properties, that you have read on the Montenegro properties?

A I cannot recall the exact name of the reports at the present time. I have some translations of some reports.

Q What do they say about this bauxite in Montenegro?

A The reports, like other governmental reports, they tell you you can mine it for nothing.

Q In other words you would not think a report like that was prepared for an engineer to base his opinion on?

A I would not take it too seriously.

Q That is all the knowledge you have about the Montenegrian deposits?

A That is all I have.

Q And they say you could mine it for nothing?

A Not quite as broad as that. According to the reports
