which you have just testified?

A I could not give you the tonnage figures on that.

Q Could you give us the approximate figures?

A No.

Q How much bauxite ore is there in the country of Istria?

A I told you I could not tell without referring to notes or estimates that have been made.

Q Then you state you don't know?

A No.

Q Do you know, or did you know, when you were answering Mr. Whiteley's question?

A I knew enough to answer that Mr. Whiteley was asking me.

Q Did you have any more information about these bauxite deposits in these various countries when you were answering Mr. Whiteley's questions in this regard than you know now?

A I did not.

Q Well, where are the Istrian bauxite located?

A Near the head of the Adriatic.

Q Well, the Adriatic is about 500 miles long?

A I said near the head.

Q Is that as near as you can locate that?

A That is as near as I can locate that.

Q How near are these deposits located to tidewater; I am now asking about Istria?

A You are talking about Istria?

Q Yes?
