Memorandum from _____ to _____

dust - storm yesterday although a rather mild one. This is unusual down here & the ~~the~~ W. W. wind has rather cooled things. (This comes all the way from Gobi Desert quite a distance.) The atmosphere looked something like in N. Y. when I was with you there, remember the forest fires?

Well only five months & four days more & I'm off through Suez etc for a grand old globe-trot. There's an Englishman here Stringer a very decent chap. who will go home via U.S.A. He'll be in Phila in Sept or Oct & I'll give him a letter to you & hope you'll find time to show him around a bit. Best of luck Lloyd.

yours as ever
Newbolt Drayton
