In the course of the
coming year I am sure you
will get on your feet financially.
And then you will be making
money hand over fist until you
have an A 1 rating. A few
contracts mean now every time
And these few will help a heap -
I would like to take advantage
of your proposition for additional loans.
It would be a good investment for me
and be of some small benefit to you
besides - Still, I feel that I cannot
show the money as I need it to
meet other obligations. I sent Papa
a check for 150⁰⁰ a short time ago
