

June 21, 1911

Dear Sir:

I enclose you check for \$25. I think that I will not
at the present time need the order which you send me the other
day. However, I appreciate it just as much as if I need it.
I visited Taylor Grove on Saturday and I am very much
pleased with the appearance of the wheat, corn and tomatoes.
Fred has planted about 2 acres of tomatoes which will give us
a pretty good yield for the coming year.
The wheat throughout the country was very much
by the drought in May, but the recent rains have helped out
wonderfully, and I should not be surprised if the crop were not
almost as good as an average.
As I told you in a previous letter, there will be no
peach crop, and I do not expect anything from the hay.
 Hoping that you will be able to stop in Philadelphia

on your next trip South. I remain,
Yours very truly,

Wm. B. Eddy
