

April 16, 1926.

Mr. Albert Dulin,  
Centreville, Md.

Dear Albert:-

Owing to my having been in New York you have not received a reply to your letter of the 12th.

I want very much to have the two buildings repaired which you mention, but I think the price sounds a little high. However if Mr. Potts will re-place all rotten sheathing before putting on the roofing and do a good job on the tool house I will pay him \$50. for the job provided he will repair the cellar door at the end of the house near the office at the same time.

Considering the amount of work he is doing I think he ought to accept this proposition.

I expect to be down on Saturday the 24th and hope the work can be complete by then.

Mr. Ringgold writes that he is working on the wharf roof.

Sincerely yours,

LTE-M

Lloyd T. Emory.
