

esting. Mr. Roubice met  
me at the J. G. office  
& took me to the  
director's room. Mr. Pistor  
came in in half an  
hour and after a  
conference R took me  
thru their coal mine  
& power plant. The  
power plant 360,000 horse  
power is controlled by  
one man in the oper-  
ating room. It has  
three smoke stacks higher  
than Billy Penn that  
you could run a R.R. train  
thru if they were on
