

Luncheon or Bots.

~~a strong decoction of~~
a strong decoction of
tobacco made of two
lb. weight; and given to
Horn at one draught
is said to be an excell-
ent remedy; given 15 or 20
minutes after a bowlful
of new milk and molasses
Wm. G. P.

I have no doubt that
giving ~~a~~ ^{or twice} a hand full
~~of~~ once a week, of such
tobacco is an excellent
remedy. I have given
this to a colt and it caused
him to pass off both, fully,
with his focus

J. E.

I have been assured
that as much ~~ball~~ as a
quart of warm water
will dissolve given to
an Horn 15 or 20 minutes
after giving him a quart
of new milk and molasses
will soon him clear
of both.

- J. P.

It is easier, no doubt,
to prevent the accumulation
of both, by the use of tobacco
-co, than to destroy them
afterwards by any remedy.

J. E.
