My dear Sir -

Your favor to hand
& your encouraging opinion fully
appreciated. If Fanny is not
in season to-morrow & not
born we will await your reply,
& send for her as soon as
I can spare my man. If you
were to send the man in to the
station at Centerville & I send
John down by an early ^{morning} start
could I not save some time.

Of course the car could be engag-
ed preparing to this procedure.
I heartily congratulate you
