

an eighth in $17\frac{1}{2}$

quarters in $36\frac{1}{2}$

she is not yet in condition
to go faster but think
she will be good for miles
in 20 in three weeks

Yours Truly
F. G. Stewman

Can't you buy the dam of
Victor and help me out
if I had \$75, I could
get a magnificent situation
in Cannery - Salary and
one half profits - the \$75 - I
need for expenses visiting
the place and arranging
details.
