

had chance to make anything out of him,
Day Aug 1st - to pay for keep and
training at your place. To your month commencing
Jan 27th - the season mentioned Jan 27th

that is the date he is over for two months

may be a greater opinion of the color than
you can see any reason for, but I believe when you
get him in condition he will show you a clip that
will please you. He has shown great speed in the
field ever since birth. When but three days old
I saw him go pace fast as the wind, and when
6 or 7 months old he trotted faster than he
could pace and faster than Lady Ann could run.
With little experience in handling, he ought to be a
great catch and Happy Russells best or faster
son.

Yours Truly
J. G. Skinner
