

allow him, (nature's plan) and then
not allow the stallion to see her any
more, unless he saw some sign,
for ~~three~~ one day. I prefer the
latter from my experience. How
soon ~~in~~ generally ~~is~~ ~~it~~
~~possible~~ in horses? I wish to
postpone my visit until you
commence working them. I shall
take my horse away in May to
sell, and if I can not sell at such
prices as I think they are worth, and
you are willing, I will send two going
down in one, particular mention to
to three in the same terms, and
you can have their colts and I will
take the colts from the ones you have
if you prefer, provided you accept
and they all have colts.

Many thanks for the names of the
breeds. With kind regards I
