what I want done with
her, what right has he to
ship her to Del when I
might want her in Md
or Penna. His right course
would be to take her with
him to Phila, or leave her
at Public in charge of good
men, or telegraph me for
instructions. I am convinced
that they are liable for
damages. I can not
arrange for racing her at
Poplar Grove until later

Did you find any one who
would be likely to buy Victor
at some price. I am disgusted
and inclined to put everything in
auction and quit.
