96 PARK PLACE,

Middletown New York, 10/18 1891

Mr. E. B. Emory,

Dear Sir,

When I left Ophelia Girl at your place I instructed your foreman to let her run to grass, but I have since thought she had better have some grain also, as it will be in good order when I bring her home.

I would like her to have grain corn, will do, twice a day and let her run out also. Whichever has been there a month I wish you would write me if you think she has caught, as it need her to drive and want to get her home soon as possible.

Truly Yours
Julian Cochran
