

hesitate to serve her if  
she comes in heat.

I think she is really the  
best brood mare I have  
and hope you can get her  
in foal -

The Saladen mare is - then  
and was very sick but  
I think she fallen up  
on your good fortune  
I would be glad if you  
would protect her from  
rain for a while at least  
and will gladly pay for  
any extra feed etc

The Don Juan filly is  
a bay - star and white  
licked pattern and I  
think she is the finest  
filly I ever owned at  
2 weeks - large straight  
and right I was  
strongly tempted to send  
her back - and may do  
so yet - - With kind

regards - Very truly A. R. Saladen
