

was waving when ~~when~~ at your
Place is too heavy for to Race
her in I have just weighed her
shoes that she had on when I
broke her home from Lyson the
whole set will not exceed 15 oz with
6 nails in a shoe and if they were
new the fronts were made for 4 oz
and the hind ones only weighed
5 oz that is both hind ones together
of course they are worn some but
I have allowed for that in the 15
oz Now let me caution you in regard
to the whip Lyson drove her with
a whip with a spur on it and
the way he used it was when it
was needed he rolled it a cross
her but up and down the
back never attempted to strike
her with it when he was racing
her as he said that would make
her sulky as soon as she was struck
