

at noon - and turned
out at night as you
did once before - at
either six or eight
dollars free worth
of so I would prefer
that as the flies are
worse with us this
year than I have
ever known them
If you think you
can keep them in
their present shape
on grass - of course I would
be glad to save that
expense but I hardly
think you could do
it. Of course I
shall be glad to have
you use the old way
as long as you have
use for her -
We are having some
very hot weather here

this week -

With kind regards

Yours very truly

Ashton R. Turner
