Mr. Edw. D. Emory

My dear Sir

I am sorry to report to you that my mare Rose is not with foal since she has been fed little hay her body has almost entirely disappeared and yesterday when a squealing horse was brought in the stable my mare pawed her hooves. It does seem that I am not to get a Russell colt at all - would you advise me to send the mare back this winter or wait until Spring. She did drop one colt to Hume's so I know she will breed - let me know
