WARREN MANUFACTURING COMPANY,

BUILDING MATERIAL.

Riverton, Va., Oct 23 1891

Mr E. B. Emory

Dear Sir:
You can ship the mare and
Cath and I will send you a better mare
next year. I suppose you will allow
me to put her in another at same price if
she proves not in foal. We are trying to
buy a Electrum & Happy Medium station here
but do not know how it will come out. Is
there any good filly standard for sale in
your county that can trot in 2⁴⁰ flat?
I want my to skin some fine people with they
are all the time after me but I will not trot
a horse on any kind of a track. Let me hear
from you

Yours Truly
Julius Slack
