Dear Sir,

On my arrival home, I learned, Mr. Linton had gone down East, on a business trip, & left word for me, that if he could find, several good Goshen Allen Hares, he would buy them for Blanding, & for me, not to do anything, until his return, so I think its best, not to offer, the West Virginia Party a price, for their Colt, for him, at present, & if you sell, ^{it} at Dover, please report to me at once, I forgot to mention to you, to take the front shoes, off of Nellie, & have her heel peaned down well, but dont touch the frog, with the knife, & if you should find Corns, in her feet, have them cut out well,
