

There may be something about  
the matter I can no more  
It is evident to my mind that  
some one who has learned  
the matter to full & she no  
any other house can not and  
pull earth out of shape at  
same time. Send me instructions  
about how to show my  
Hoping you will have all  
success and that this matter  
will get come out all right &  
am yours finally  
If the name went that I J. G. Coofee  
will make her see one

I have no doubt any of  
the three you mention would  
do well with her if they could  
but their trying would cost me  
\$35.00 a month and I have no  
coloring of assurance they would  
do any better than is shown  
I don't think the any one  
can take that money and  
do any thing with her or  
her present word she may  
never be hearing of the  
much all together for a year  
or more and let her forget
