Williamstown, W. Va., July 25th 1891

Mr. Edward B. Emory

Dear Sir:

Your letter containing your check for \$12.00 payment on the filly Dazyll came duly to hand. Please accept our thanks for same. And also pardon our delay in answering. Time flies so very, very rapidly, especially now that we are in the midst of hay harvest. We glad to know that Mayzelle gives evidence of being a fine in foal and that her present foal seems to be good enough to warrant you in the belief that he would make a trotter. As to the developing of him, we must say that we had not given the matter any thought whatever.

What kind of a proposition could you make us. It would have to be a pretty liberal one, as the individual would be the most we would have in it, and we think there are a great many speculators furnished up, by our paper, than. How is Dazyll getting along? Is there any fault in her? Does mare look well, and the colt also looks tolerably well. Has scoured a little lately, consequently does not look quite as well as we would like. We would like very much to accept your invitation to visit you this month, but shall have to defer that pleasure for a time. but
