

do with all of these dreadful murders - Charles and Prince George's counties seem to be running a race, each trying to out do the other in horrors. Dr. Waring who was killed in P. G. Co. was a brother of a friend of ours here Mrs Robt. Borrie. And our sympathies are very much excited in her behalf. Her husband lost his position here in the spring, being a Democrat she lost her hearing, and now her brother is killed!

Miss Barstow seems to have had something of an adventure while with Miss Deaver in Frederick. I think the many and great compliments showered upon Miss Deaver by the Terr and other papers must in some measure compensate her for the trying time which she had. She really must be a wonderful girl - and strong in character as well as body.
