Dear Sir

Will you please
start Mr Hall back with
Victor Russell, and keep all
and the mare over until
tomorrow A.M. If you find
the mare will take the horse
would request that you let
Russell serve her to day and
again early in the morning. I
find it easier to "catch" her
by this plan. I think if I
get a full brother & sister to
Victor Russell I will be getting in
good shape in the horse line.
