

the races happy. Mand is
not mentioned, so I don't
understand you. Please write
& explain this & then I will
decide about having her worked

to avoid a return of those splints
& please use her Boots on her
on all occasions when you
drive her. Let me hear from
you fully by return mail & I
will decide what to do, do you
see signs of those splints still
enlarging, your prompt reply
will oblige
