

Horton

Sept 20th 1889

Mr E. B. Emory

Dear Sir

The pig arrived
all night at Rockwell
yesterday. She is a fairly
good pig, well marked,
good shape for a brood
sow, but rather thin.
She eats hearty and as I
have plenty of skim milk
will soon bring her up
into good shape.

Is she from parents of
large size and good
quality.

Will you please send me
her pedigree and registration
papers as soon as con-
venient. In the spring I
may want some more sows.

Yours respectfully,

Wm E. Muncester
