

my mare to Balto. & for me to
have your mare there and load
her when my mare is unloaded.
as no one is required to go on
the boat in charge. Let Hiles
know at once when you can
have his mare arrive say Thurs-
day or Friday of next week and
he will have your filly there &
load her on the same boat.
If you do not succeed in mak-
ing sale of the filly please have
her securely penned on the boat
so as to avoid an accident
to her. Hiles slipped up terribly
with his mares last spring
in getting them in boat - the
mares with foals by their side.
He caught all his mares not
suckling - but only got about
one out of four of the others &
is still breeding them - Hence
I feel anxious about my old
mare bred to H.R.

Yours very truly &c.
Benj. White.
