

Hagerstown Sept 30th 1893.

Mr Ed B Emery,

My dear Sir.

My Mare reached home this morning & seems to be in good condition. I enclose you a Check for the amt of your bill sent me from Arlington, Twenty four $\frac{83}{100}$ dollars which settles my acct in full.

In your letter of May 21th you say. "The Carrier a 7 oz. shoe in front & 4 1/2 behind, & now seems to be perfectly balanced at a pace". I find on one hind foot a shoe which was nearly off & which weighed six & a half ounces & this nearly worn out. In front she seems to be carrying a shoe which weighs about 12 oz. Will you be kind enough to let me know your reason for changing the weights after shoes.

Very Truly Yours

A. S. Mason
