Dear Emory

I wrote you several days ago regarding the \$4000 loan, & but receiving any immediate reply - as requested, I fear you have not received it - and as it is in for trial of you still desire the money - to proceed at once, as we have several places now in view where the money might be procured - and perhaps with less delay - I write again asking you to reply & give us your wishes and all the information possible pertaining to the matter - Hoping you are well - and all well with you

I am ever yours
