

all idea of obtaining speed
in that way.

My own experienced
teacher, and there is noth-
ing on earth so dead as
undeveloped speed, taking
developed speed as a basis
of values. Happy Bee as a
ready made trotter was
as well worth \$5000. as a run-
ning Bird is \$1500. & yet
a report says you sold her
for \$250. After spending
thousands & thousands of dol-
lars in trotting had colts
that never trotted, for less
than \$2000 & bought of Wm
Stearns the fastest three
year old colt of Kentucky.
If I conclude to feed my
pacing filly I'll write
again
Yours truly
