

which is you must acknowledge not
a profitable investment to me

In ref. to Rose You agreed to
take Rose breed her & when she dropped
a colt I was richer To give you
\$100. or take \$100. for the calf

This was purely a confidential arrangement
I have not said anything of it

If however you do not desire
to extend that condition to me

I will settle for the colt as
soon as there are any signs

of the mare being in foal -

I think Mrs Emory that it
is not only right, but to your
interest that I should get
something for my money

I have talked for you and

your horse when your

members were on every hand

and only desire to receive the

treasure which I am sure

it is your interest and intention
