W Edward B Emory

Dear Sir, Recd your

of 24 today, was sorry you did not come up, as our racing was first class of the day. You promised to come. Adler was here and spent two days, and seemed to have a good time excepting financially.

Talking about "Dir Phelps", he is rather in the road but since he has been on me he has paid expenses, as he had three mares and I suppose next week will get two more. But I have no place for him only in a livery stable and as there is no man to handle him some he is rather a bother but I shall keep him until Spring and then make some arrangements
