

at three years old, she is a beautiful
dapple brown, $13\frac{9}{14}$ hands, might 1000 lbs
warranted sound in every particular
and a warranted safe for a lady to
drive. I also have her full brother
a stallion, four years old, which
makes a dead mate to her.
My wife drives them double, and
they make a handsome pair.
I have four others to sell also,
equally as well bred, and just
as promising, and now if I
do not get my price, have
made up my mind to send
over to you on the same
terms, two or three others
to be used. How much you
like to buy the pair?
