United States Internal Revenue,

Collector's Office, District of Maryland,

....., 189 .

May regrets very much that she could not
make the arrangements so as to spend one
day, & night with you & Mrs E. She was so
anxious to see the children, & had over times
gone over with you when we lived in old Kent.
But May has a very warm spot in her heart
for you. She sends her warm regards to
you & your good wife, & children, & hopes some
day to meet you all. If I can know
when Mrs E is in the city, I shall certainly
take Mrs Wright to see her. Were you successful
in seeing any of your horses? I supposed
all this that your Governor has returned.
Say to Ned that he must be a good Boy,
& study hard, & our Democrats will send
him to Congress some of these days. Love
