Dear Sir

you on Wednesday The 28th a Jersey
calf in crate. The calf is growing
quite good. we came to Maryland the first
day with him (I tell you he is a line)
I think the mare is in fact again
if so look for her back next spring (Mason
says my calf has caught up with his
growing legs very much. Now we think
a great deal of him if he is Hornely as I
he is mostly in a long jag you may
remember me to family
