

RETRAND

RAITIRORE TRANSIT
MAY 23 1891

My wife knew that such are out of my reach, but I would like the mare to be a good road ste. with plenty of spirit, with good size and color.

I am more particular about nice clean action, than I am about speed in the mare. I know that I am not able to ~~get~~^{buy} speed of a high order, and so prefer good style and action to moderate speed with clean qualities.

The mare that I would prefer for a brood mare (not being able to buy one bred in the purple) is a mare of good size and color, with good action, and plenty of ^{of} ~~surround~~ energy, whose calls by a name like Roffy Peavee if they failed to trot fast, would I still command a paying price as road horses, and a mare bred well enough for her female produce, at least, to be entitled to registration.

If the colt that I sold a few days ago had, had fine style and road qualities I could have gotten \$200
