A TRIAL IS WORTH WHAT WE ASK + SEND FOR CIRCULAR GIVING FULL PARTICULARS.

considerable speed and will  
have her handled some this  
spring, and if she should not  
do to suit me may breed  
her in the fall. May Dec is  
growing into a large fine filly  
and purpose going slow with  
her this year. Shall give her  
some early quiet work and if  
she should naturally develop  
up speed to justify it would  
be very glad to get you to take  
her. Was glad to hear so good  
a report of Betty Minton's colt,  
think she should make a great  
course with Prussell. Have been  
very anxious to attend some of  
the New York sales and buy a  
filly or two, but have felt too  
poor, but have been very quiet  
and people poorer than I have  
ever seen them here, am hoping  
will all be better by another year  
Yours truly Geo. A. Millington
