suit him (the Dr). One thing I do know  
Namely that when the doctor commenced  
trucking Lord B - he would crack in his  
fellocks on being driven a  $\frac{1}{4}$  mile in  
an ordinary jogy trot - and now he  
does not have any trouble whatever  
from that source. I would like very  
much to see you and talk over both  
Aunt & Dobby Arthur - as the outlook  
both in business and especially in the  
trading home line is such that I don't  
feel like fooling with them unless you  
good ground of being recompensed.  
If you are coming up within the next  
week I would send horse till after  
talking with you.

Yours Truly
