Mr E. P. Emory

Dear Sir!

I jogged your Horse yesterday, examined him closely, and I thought it best for me to write a Letter to you, as you wrote that you were coming next week, I thought I might save you the trouble.

I find your Horse looks somewhat second handed around his hind Legs, I find he is curbed a bit, he has a spavin, and another coming, and of course he is not worth that to me as I would have to go to work
