My Dear Ed:-

It was about three or four minutes before the train pulled out of Centerville yesterday so you see I just did ^{have} time to get aboard and get settled

I certainly did have a fine time for the short while I was over there and I want to thank you all ever so much.

When I got to Baltimore I was going up to see Sue but I did not know any thing about the cars or at which street to get off at and what is worse I did not know the right number.
