

to borrow it on a business raises.

I do not like Mr Mac. as well as Mr Lavis. Mr Lavis told me that to be sure & let him know when I come east. But he advised me to stay out here for at least another year. The wages here are at least fifty percent better than in the East. & it is much easier to get raised. So I want to stay here if possible. But I would like to get up in Colorado. I think it would do me a world of good.

The first time you go to Baltr. I wish you would get me another dozen Hamker chuffs & send them out. I will send you the money when my next check comes. I have lots more letters to write so I reckon I had better say good by & with lots of love from
B.
