Office, Opposite Post Office.

Washington, Pa., March 3^d 1891
 E. D. Emory Esq.
 Sir

We have received from G. W. Patterson of Ashton Iowa, a communication in regard to the get of Happy Medium.

He says and as we think truly that something should be done to forward the interest in Happy Mediums, and that greater effort should be made by the owners of colts to place them in the list.

Mr P. says it will be inconvenient for him to train his horse "Warrior" but will make some sacrifice in order to place him in the list.

We have one that having accidents will go in the list and another that we are almost sure of.

There is no doubt that if proper effort is made by the owners of colts and fillies twenty-five or thirty can be placed in the list this season, it is certain that the owners of Happy Mediums are not doing what they should for their own benefit, and if the get of H. his had anything like the chance the "Wilkes" and "Electioners" have had they would be equal.
