on side so about six had to ride on top. I tell you it is great to ride on top of a fast train. Truckers she must have made about forty miles an hour. we were flattened out on top with our fingers stuck through the cracks in the foot planks and had to hold on for dear life. We caught just about all the crudes & kerosene that came out of the stacks so you can imagine how dirty we were when we got off.

We were back in on a siding about eleven o'clock with not even so much as a shed in sight. Our cots & beds were loaded in the end of the car so we had to unload the whole morning match before we could get at them so you can imagine what time we got to bed. So I am
