

and elected officers for our literary club.  
When we got down to the High School  
Friday night, all hands were locked out  
Prof. Jackson, Miss Harcastle and all,  
because the janitor had locked the door  
from the inside. Some of the boys went  
down to the janitor's house to explain, and  
the rest of the boys managed to open one  
of the windows so that they could get in and  
open the door for the rest. There was no one  
had any matches so we had to wait in  
there until some body went up town & got  
some before we could light up.

The white rat is doing all right and so  
is "Toby". I enclose a picture of the latter which  
is cute in the extreme. I carried one of her  
kittens around to the back porch and  
she carried it back. Give my love to Bunny  
and tell him that I would write to him  
if I just had the time but I have been  
studying all day as it is, but I am thank-  
ful to say that I know them all for Monday.

Papa had a stag dinner today and  
the guests were Messrs Samuel, Wm.  
Collier & McFarland Bros. I must  
close now so good bye. Give sister and  
Bunny my love & keep a good portion for  
yourself.  
Yours truly  
Edw. Blinney Jr.
