

I am glad to say it is very warm
If it were not I do not believe
we could keep well.

The peach trees have been
in bloom ever since the
first. And it really feels as
if spring were in the air.
Every time the sun gets a
chance to peep out the wood
are just alive with little
beetles & crawling things.

The Buffalo gnats (a little
pest that you do not know
any thing about) just worry
us to death in the day
time & we have mosquito
too as large as Jersey ones to
sing no sleep but night.
When we move camp it
is one continual work of
lifting the teams out of
mud holes & cordoning
roads. I am glad to
say our next move will
be by water.
