be across the top of another ridge
 two or three miles away & then
 show up on one still farther away many
 feet in the air. In quality the
 same here. They are big. One of
 you would go direct or west or
 south or north. But if you want to go
 any other place you must go to the
 south or north. The camp is located on
 a small hill a slope and around
 the camp is about 1000 feet in
 circumference. We have five tents
 including the cook tent.
 Our outfit consists of eight men
 a cook & an assistant cook
 as a "breaker."
 The office tent is the high place
