

summer. He is one of those kind  
that are very attractive to all women  
I don't know just why but some  
men are like that way. And it  
does not seem to make a particle  
of difference what they do.

I only think that I will hat him  
but would be another fellow. And  
I am afraid that the other fellow  
will not come along.

I think it would be best if you do  
not send me too many news  
papers at present because when  
we are on the move as we are at  
present I have to send postage  
several times to have them  
forwarded. I would like very  
much to have a sum about  
once in two weeks.

When ever you see any Coast  
Survey news I wish you would
