My own darling wife -

I arrived here at six P.M. and considering the busy day - long travel and a cold I feel better than I expected I would - I had a very nice trip with Harry - he staid with me all the time notwith standing three more boys on the train going back to college - I am very much pleased to see that we are growing to be such companions - it is my desire to be a comrad for all of them - with the exception of old Chance - and my cold - I had a happy Christmas - I am like Harry home sick as I can be for you all -

I had a very pleasant interview with Mr. Conrey - he had an engagement out of town at 2 P.M. - I went down to Elliotts to get you better paper - and my recollection was you wrote me to get 6x6 - but they insisted it would be 6x9 - I send you two sheets as samples - with you which need I will send you what you want - I hope you are all well - Love to all - God bless you my darling -
your ever loving
Hubbard
