190

Love you and the children less -
I love you for loving my sisters - as they
have a claim of affection upon me - and I am
always ready and willing to give them a word
of affection that may be a little help in
this path-way through life - I do not think
that I have ever shown to you a lack of love
and this is the one that could influence me
from my wife and children - if they had their
desires - but my sisters are free from that

I guess you and I had both got down to
the general routine of life as we use to - but
you got suspicious about asking me for money
or telling me any thing about our financial
condition - I have been very miserable
since my return - I came in today - completely
used up - I can not tell what is the matter
with me - if I do not get better, I will buy
of part of my ranch and try catch up -
but I hope the medicine will improve me -

as I go on Long Island Sunday and the
chances are I will be there a week -
I will write you again Saturday night
you had better address you first letter
to Bridgehampton - then up river Thursday
Riverhead after that Ironton Hotel N.Y.
Yours always
Harry.
