one of the best treatments - I only wished I
could be with you for a few days - while
you could get over the blues - I guess Bill
and Sam struck some roots around the branch.
I think you have a much more uncomfortable
position than I have - for when I can not get
a man to work properly or take interest I only
have to expect myself a little more -
Please don't worry yourself about me as I am
improving very much - and feel you like myself -
